BIENNIAL REPORT

OF THE

State Board of Land Commissioners of Colorado

Denver, Colorado, November 30, 1910.

To His Excellency,
JOHN F. SHAFROTH,
Governor.

Sir—In compliance with Section 3165 of the Revised Statutes of Colorado of 1908, I have the honor to herewith transmit to you a report of the business of this department for the biennial period ending November 30th, 1910.

The State Board of Land Commissioners for this period is to be congratulated on the most successful administration of its affairs in the history of the Centennial State. While much is due to the advanced values of public lands, created to a large extent by the firm stand taken by this Board and its efficient appraisers, commendable results have been obtained by a Board which has given careful, conscientious and close attention to its duties, aiming to adopt as its motto "Forward" in the conduct of a business administration.

A BRIEF STATEMENT OF THE MANAGEMENT OF THE STATE LANDS UNDER THE PRESENT ADMINISTRATION.

The Board, when entering upon its duties two years ago, carefully considered what would be the best policy in the handling of this vast estate of 3,699,731.72 acres of land, estimated to be worth between forty and fifty millions of dollars, held as a sacred trust, a heritage to the school children of this State.

It must be remembered that the best of this land had been sold by former State administrations, and the greater part remaining was arid lands, and, further, that the water rights of many of the important rivers of Colorado had been appropriated many times over, leaving mainly in view for future irrigation the possible flood water storage system.

The record of the State Engineer's office showed an extensive increase of filings upon the waters of the State, particularly directed towards the use and storage of the early spring flood waters. Having this in view, it was decided as the policy of

Direct 1909-10
26 M13 7H

the Board that land should be sold in order that it might derive equal benefits from the fast decreasing opportunity for irrigation, as irrigation regulates and governs all land values. The foresight of the Board has now been fully proven, as over 2,200 filings have been made upon the water of Colorado's streams in the past eighteen months in the office of the State Engineer.

By this policy the home-seeker and settler would not only be benefited, but the taxpayer in each of the various counties of the State would be relieved in part of taxation, thus placing the land upon a taxable basis, upbuilding, populating and increasing value in every county. As a main result, by conservative land sales and the issuing of the seven, fourteen and eighteen years' certificate of purchase contracts, the deferred payments bearing six and seven per cent. annual interest, there is brought an enormous annual revenue to the school fund. Where sales were to be made, or contracts entered into with corporations or irrigation companies, only alternate sections or half sections of land would be disposed of, thus reserving to the State one-half of its lands in certain localities which would derive the benefit of the improvements of the adjacent land which was sold and brought under irrigation facilities, enhancing the value of the land thus reserved, in many instances more than one hundred per cent. The Board ordered widespread monthly advertisements of the land to be sold, not only in Colorado, but throughout the Eastern states and Canada, and notices of each monthly sale conspicuously posted in at least two hundred post-offices of Colorado, thereby causing sharp competitive bidding. By this method an unprecedented increased financial result has been obtained.

At each monthly sale from \$5,000.00 to \$50,000.00 more money has been received than was fixed by the appraisers of the Board for the 287,340.63 acres sold; an average price of \$11.59 per acre has been secured; an increased annual revenue to the School Fund has been made as follows:

REVENUE FROM CERTIFICATES OF PURCHASE.

Biennial period 1907-1908.....	\$263,627.93
Biennial period 1909-1910.....	801,671.66

Increased annual revenue over previous term, \$538,043.73, bearing interest at six and seven per cent. annually.

Beneficent increased results have been obtained by the present Board under the leasing system, caused by the Board's widespread advertising and consequent competitive bidding. While the following table will show a decrease of the acreage leased in comparison with the previous biennial term, of 117,254.80 acres, this has been caused by the sale of such land as has been sold at an average price of \$11.59 per acre, and is now bringing to

the School Fund six and seven per cent. annual interest. Yet an increased income has been derived from leases with less land of \$14,698.91 annually.

And, further, that the new plan adopted by this Board of the leasing of land where conflicting applications are filed, by the open public auction bids instead of the sealed bid system heretofore used by former Boards, has resulted in more satisfactory results both to the State and to the public at large. This improved method was recommended by many of the leading stock growers of the State.

COMPARATIVE STATEMENT OF REVENUE RECEIVED FROM LEASED LAND.

	1907-1908		1909-1910	
	Acreage	Amount	Acreage	Amount
Agricultural land.	84,165.80	\$ 37,997.11	72,494	\$ 40,367.71
Grazing land.	2,580,418.00	143,090.47	2,474,835	155,418.78
	<hr/>		<hr/>	
	2,664,583.80	\$181,087.58	2,547,329	\$195,786.49

Total increase from leased land under present administration, \$14,698.91.

Colorado stands pre-eminently in the lead of all its sister states in the handling of its vast school system revenue intrusted to its executive supervision, and this trust must be safeguarded by all future State administrations.

Three million, four hundred and twelve thousand, three hundred and ninety-one and nine-hundredths acres of school lands are still held in reserve, while the acreage disposed of in the past is now bringing an enormous annual revenue to the School Fund.

Let me briefly cite the following comparisons from other states: For instance, the state of Ohio received for her lands only 50 cents per acre, and instead of now having an income from their lands, the people of Ohio are paying by taxation for the entire support of the schools.

Missouri sold her lands at about \$1.75 per acre.

Kansas sold her lands at about an average price of \$3.66 per acre, and was defrauded out of hundreds of thousands of acres by bogus applications, fraudulent appraisements and non-advertisement of lands.

Iowa sold her lands for \$2.32 per acre.

And, in looking further into the administration of school lands in many of the states, the same story is true. The highest price of any school land in Nebraska has been \$7.00 per acre; that state having lost the cream of her lands, now only has land that would bring half that price, and for that reason the state has withdrawn the land from the market.

THE CAREY LAND ACT.

The past two years have demonstrated very clearly the great benefits that have accrued and will continue to accrue to the State of Colorado by taking full advantage of the opportunities offered by this Act.

The experiences of the first contracts made by the State have shown their weakness, and, profiting by this, the new contracts now being made protect as fully as possible the interest of the prospective settlers, the irrigation companies and the State. Our contracts are much more rigid and far better prepared than those of any of the other Carey Act states.

The great advantage of the Carey Act is that it throws open to future settlement and reclamation large tracts of barren, worthless prairie that by no other means could even be settled up, and by this Act thrifty farmers from over thirty states have been induced to come to Colorado to reside.

I would recommend that from the magnitude of the business now done under this Act, a Carey Act Department be maintained under a Superintendent of Irrigation, who, of necessity, shall be a practical and experienced land and irrigation man, at a salary of not less than \$2,000.00 per annum, paid out of the Desert Land Cash Fund. This would be one of the proper expenses of this Board provided for out of the 50 cents per acre received by the State from these lands.

I would also recommend the passage of proper legislation accepting for the State the provisions of the several Acts of Congress passed since the formal acceptance by the State of the provisions of the original Carey Act.

I further recommend that section 5145 of the Revised Statutes be amended to read as follows:

Section 26. Immediately upon the receipt of any request and proposal as designated in section five (5), it shall be the duty of the Register of the Board to examine the same and ascertain if it complies with the rules of the Board and the regulations of the Department of the Interior. If it does not, it is to be returned for correction; but if it does so comply, it shall be submitted to the engineer of said Board, who shall examine the same and make a written report to the Board, showing the practicability and feasibility of the proposed works; whether the proposed diversion of the public waters of the State will prove beneficial to the public interest; whether there is sufficient unappropriated water in the source of supply, and whether or not a permit to divert, store and appropriate water through or by the proposed works has been approved by him; whether the capacity of the proposed works is adequate to reclaim the land described, and whether or not the maps filed in the office of the State Engineer comply with the requirements of said office, and the regulations of the Department of the Interior; also, whether or not the lands proposed to be irrigated are desert in character

and such as may properly be set apart under the provisions of the aforesaid Act of Congress, and the rules and regulations of the Department of the Interior thereunder; and from said report and from such further information as the Board may require, said Board shall determine whether or not such application shall be allowed.

I would also recommend that the State make formal request of the United States for an additional million acres, as there are now enough Carey Act projects in contemplation to cover several hundred thousand acres over the million acres now granted to the State.

COMPARATIVE STATEMENT OF THE BUSINESS OF THE CAREY ACT LAND DEPARTMENT.

FORMER ADMINISTRATIONS.

Prior to December 1, 1908.

Segregations approved.....	2
Acreage in approved segregations.....	54,000
Segregations pending.....	1
Acreage withdrawn.....	22,000
Applications filed.....	23
Acres entered.....	2,440

PRESENT ADMINISTRATION.

December 1, 1908, to December 1, 1909.

Segregations approved.....	4
Acreage in approved segregations.....	203,000
Segregations pending.....	12
Acreage withdrawn.....	655,000
Applications filed.....	382
Acres entered.....	33,348

ESCROW FUNDS.

List No. 3. Continental Trust Company.....	\$44,020 .00
List No. 6. Interstate Savings Bank.....	4,196 .00
List No. 7. First National Bank of Lamar.....	97,100 .38

The escrows of Lists Nos. 3 and 6 are still held on deposit.

List No. 7 has been transferred to the construction company, the system being completed.

The above funds are for payments made on water contracts, which are held in escrow pending the construction of the system.

Although the steady growth of the State Land Department has greatly increased the necessary clerical work during this period, no increased expense or help over the previous administration has been required and the working system of the office has been visibly improved in many ways, among the most important being the securing of the duplicate rooms and vault directly be-

low, thus doubling the floor space and relieving the upper vault congestion.

There has been installed a modern perfect-working card index system for the notification and collection of the extensive lease rentals and annual payments due on certificates of purchase. The installing of a card index system for the handling of the many thousands of applications by the Chief Appraiser, and the installation of a complete modern card index system in the mineral department has also been completed.

Your attention is called to the fact that during this administration \$12,809.70 delinquent rental payments upon leases, and \$8,380.48 delinquent annual payments upon certificates of purchase, making a total amount of \$21,190.18 that has been collected of the delinquent amounts due and unpaid to former administrations, and that we are continuing to make a determined effort to collect the delinquent rentals of former Boards, a large number of which, amounting to \$6,435.80, have been placed in the hands of the attorney for the Board for legal action.

We have discovered that many irrigation, reservoir and ditch companies have been unlawfully using State lands for years for reservoir sites and ditch rights of way without title from or compensation to the State; of these a number have been compelled to pay for such rights, and some have been turned over to the Board's attorney for collection.

Special attention is called to the fact that the amount of clerical work, field work, office equipment and supplies that have been necessary to carry on the work of this department, and the great demands made upon the office force, demonstrates to the public and the General Assembly that the Land Board has practiced the strictest economy.

Briefly stated, the following summary comparative table will conclusively show results obtained by this administration:

SUMMARY COMPARATIVE TABLE OF RECEIPTS, BUSINESS AND RESULTS OBTAINED.

CHARACTER	1907-1908	1909-1910	Percentage Gain
Total cash receipts.....	\$ 837,110.38	\$1,428,787.82	59%

Total Increase..... \$ 504,974.13

Of these funds the following amounts are invested in State Warrants, which draw interest at 4 per cent. per annum:

Public School Permanent.	\$1,225,975.63	\$1,690,884.13	\$464,908.50
Internal Improvement Perma- nent.....	28,625.90	28,625.90
Agricultural College Permanent.	61,741.63	64,748.82	3,007.19
University Permanent.....	39,356.66	27,763.87	\$11,592.79

Total Increase..... \$ 456,322.90

The worldwide attention directed towards the great resources and climatical conditions of this State; the extensive completed and contemplated irrigation projects which are to reclaim a vast area of mesa, mountain slope and prairie, has firmly established the values of Colorado's lands; these fixed prices will be maintained and increased for all time to come. I would, therefore, recommend a thorough revision of the lands under the control of this Department, and that classification charts be prepared, thus conveying to the Board the knowledge of all grazing, agricultural, sale, irrigation and mineral values of the area under its supervision in the various counties of the State.

The vast area of mineral and coal lands under the control of this department particularly requires the most careful future protection. In many instances in the past, very valuable coal and mineral lands have been sold without such rights being reserved to the State, thereby entailing a loss of magnitude impossible to estimate.

While it is now the policy of this Board to insert the mineral reservation clause in all sale contracts, such procedure can be abrogated at the option of the Board when in its judgment it is deemed for the best interest of the State.

I believe that the future revenue to be acquired from the great mineral resources under control of this Board is beyond comprehensible value, and in time to come will alone maintain the entire expense of the school system of this State. To this end, profiting by the lesson learned from the past, and looking to the future, I would recommend a legislative act requiring the mineral reservation clause in all patents or contracts for sale of lands; the act should provide some method whereby the purchaser of State land should be indemnified for such damage to his surface rights as may be caused by the operation of mineral leases; and that sections 5215 and 5216 of the Revised Statutes of Colorado of 1908, providing for mineral locations upon State land, be repealed.

I also wish to recommend an amendment to section 5185 of the Revised Statutes regarding terms of payment for State lands, extending the term on lands selling for \$3.50 to \$25.00 per acre to thirty-six years instead of eighteen years; on lands selling at more than \$25.00 and less than \$75.00 per acre to eighteen years; and on lands selling for \$75.00 and upwards, twelve years, and also reducing the rate of interest on the balance of the purchase price in each case. The purpose of recommending this change in the statute is the impossibility of being able to keep the State funds invested in satisfactory securities and at a reasonable rate of interest. If the changes suggested were made it would insure the State having an investment in the land for a much longer period, and the State would secure a much larger rate of interest than it is now able to receive for funds which it has on hand.

I have examined the laws in a number of other Western States and find that they grant a much longer time to make payment for their lands and most of them charge a smaller rate of interest than is charged in Colorado. The advantage in reducing the rate of interest is to stimulate bidding and procure a larger price for the land sold, the rate of interest being smaller and the time for which payment is to be made being longer would encourage purchasers of land to give a larger price when they bought the land.

The closing of this biennial period marks an important change in the management of the affairs of this department. The Governor, Secretary of State, Attorney General and Super-

intendent of Public Instruction, composing the State Board of Land Commissioners as created in the original constitutional provision, will now retire after the administration of the duties of this sacred trust for a period of over thirty-four years, a change necessarily required owing to the rapid growth of this great State and the increased duties devolving upon the executive officers of this Board in the administration of the affairs of each of their departments. The adoption of the constitutional amendment at the late election by the vote of the electors of this State, now provides for the appointment of a new Board by the Governor.

The Governor of this State is to a great extent held responsible for the conduct and successful administration of the affairs of this department; to him is due the knowledge of all important details. I recommend that he be considered an ex-officio member of the Board, and that he be called in at stated periods for a general review of its proceedings.

In conclusion, if it may please your Excellency, I wish to remind you that the work of this department and its accomplishments rests largely with the splendid office force of employes, who have been upright, industrious, painstaking and obliging, feeling, as they have a high sense of duty that they not only owed their employers, but to the State, and, consequently, at all times have used their best endeavors to assist in making this department reflect credit and rank second to none in the United States.

By reason of the statutory provision regulating the extent of this report, and the additional space required for the proper tabulation of the increased business of this biennial period, I am compelled to curtail this preliminary statement.

Respectfully submitted,

B. L. JEFFERSON,
Register.

NOTE.—*Excess in Washington County, 24,841 07 acres leased. *Excess in Weld County, 37,128 47 acres leased. Total, 61,969 54. *The excess of acreage leased over and above that owned by the State as shown by above table is explained by the fact that the U. S. Government permits the State to lease lands as soon as the selection of same is approved by the Government, but the State is not entitled to consider same as acreage owned until the patent passes from the Federal Government to the State.
